

GENUINE SPOON: NOT YOUR CASUAL BAND

Tired of hearing the same bands playing the same songs? Genuine Spoon is not your usual opening act band : it's a collective music project composed of 30 musicians. They all share a serious studio addiction and the result will leave you stuck to your headphones.

Genuine Spoon melts your mind with acid using a simple concept: a captain, Kevin de la Canopée, chooses from the 30 musicians of the band a different team to create together a new composition.

Each song is a different spiritual travel, a different taste you are discovering on your tongue.

LA CANOPÉE

Many people's story are connected by the studio, artistic lair and refuge for musicians and artists of any kind, many tracks were recorded with the help of the team's deep passion for music. They keep working hard at making a new wave of music based on quality and feelings, and gained the trust of many bands around Paris and in Europe.

Artists like Nekfeu, Stonehenge, XKP or Theo Lawrence produced their tracks at the studio with Kevin de la Canopée, director and sound engineer of the studio.

They have organized events such as album premieres, huge jam nights every Friday for years, making good business and developing with time.

This place is an experience and it melted all of our stories into one big story, creating La Canopée's history.

Genuine Spoon Vol.1
